A Local Tax Increase Of $1.75 Per Hundred Or A TWO PER CENT SCHOOL TAX ON RETAIL SALES YIELDING $411,600 In Four Years For School Needs and NO INCREASE In Local Taxes

WHICH DO YOU WANT?

School authorities of Appomattox County have reported that they need $770,800 to provide adequate schools for the children of the county. If this money is raised by borrowing on a ten year amortization, the average total tax rate for the county will have to be increased by $1.75 per hundred to pay off the loan.

ON THE OTHER HAND, a two per cent school tax on retail sales, if distributed on the basis of school population, will provide $411,600 for our school needs over a four year period with NO INCREASE in other taxes.

The sales tax means "pay-as-you-go" financing and no burdensome tax increases. This is the way Horace H. Edwards will provide for our school needs if he is elected. This is the ONLY feasible, equitable and effective plan advanced by any of the candidates. This is concrete evidence that Horace H. Edwards, with his wide experience in government, his youth, his courage and his forthrightness, is the ONLY man for governor.

A vote for HORACE H. EDWARDS is a vote for the only *realistic* way of meeting our needs.
